

mtk::Div1D::num_feasible_sols

```
graph RL; main --> mtk::Div1D::num_feasible_sols
```

The diagram illustrates a pointer relationship between two variables. On the right, a white rectangular box with a black border contains the text 'main'. On the left, a gray rectangular box with a black border contains the text 'mtk::Div1D::num_feasible_sols'. A dark blue arrow points from the right side of the 'main' box to the right side of the 'mtk::Div1D::num_feasible_sols' box, indicating that 'main' holds a pointer to the memory address of 'mtk::Div1D::num_feasible_sols'.
